Wireless rechargeable mouse

This wireless mouse allows you to avoid annoying situations with a sudden shutdown because it can be charged in any mode that is available for you, both wired and wireless. All you have to do is just put the mouse on the charger for your smartphone or a special mat produced by Canyon. This is extremely convenient! A modern optical sensor, 6 buttons, three DPI switching modes and a soft-touch rubberized coating - all these parameters turn the mouse into an excellent working tool that will last you for a long time and provide comfort and excellent user experience!
