Main characteristics	<p>The ultra-powerful Type-C ports enables you to charge your laptop on the go at full speed.</p> <p>While the aluminum layers dissipate heat, the compact design makes it ultraportable. The total maximum output of the four USB ports is 222.5W, which can provide rapid charging for two laptops or tablets and two mobile devices all at once.</p> <p>By using a 100W wall charger, Ultra Pro's internal battery fully recharges in just 2 hours.</p>
Product description	<p>Monster power capacity in just one powerbank! Ultra Pro PD903 is the gadget that will help you fast recharge all of your devices. With a massive 27,000mAh capacity, you can charge an iPhone 13 Pro 5 times, a Galaxy S22 more than 4 times, or even a MacBook Air 2020. This powerbank has four charging ports, so you can charge multiple devices at the same time. The ultra-powerful Type C ports will help you save a lot of time, because your iPhone will fully recharge three times faster! By using a 100W wall charger, Ultra Pro PD903's internal battery fully recharges in just 2 hours, while a standard charger will take much more to top up. Also, you can see how much power you have left on the LCD display.</p> <p>This powerbank is not only super fast, but also super safe! Aluminium layers safety protection prevents the powerbank from short-circuit, overcharge, overdischarge, overcurrent and over-temperature.</p>
